TECHNICAL DATA SHEET

PRODUCT DESCRIPTION:-

NEROVAK STONE DENS 200 is a single component, colorless liquid, slightly hazy in color, odorless, safe & environment friendly, suitable for interior as well as exterior penetrating silicate based compound chemical treatment that chemically bonds with the calcium compounds making the stone/ marble harder, dense, reduce porosity, prevent micro cracking & powdering, enhance polishing and gloss retention and improve durability of stone. It strengthens the upper layers of the stone, acting as a deep -penetrating hardener. This process drastically improves properties stain resistance, stops dusting, and allows for a higher, longer -lasting polish.

KEY BENEFITS:-

Increases Hardness: It strengthens structurally weak or powdery marble by bonding loosely connected materials, making the floor more resilient to heavy foot traffic.

Enhances Shine: It provides a rigid, uniform foundation that allows for a much higher, long -lasting gloss.

Reduces Porosity: It fills permeable microscopic gaps, which helps block water absorption and provides better protection against stains.

Improves Abrasion Resistance: The chemical reaction creates a denser surface, drastically reducing everyday scratching, wear, and dusting.

Preserves Natural Breathability: Because it penetrates and reacts internally rather than forming a topical film, the marble retains its natural look, color, and texture.

HOW TO APPLY IT:-

Prep: Grind the marble floor (up to 100 or 200 grit) and ensure the surface is completely clean and dry.

Apply: Pour or spray the NEROVAK STONE DENS 200 on to the marble and spread it evenly.

Dwell: Keep the floor visibly wet with the chemical for 15 to 20 minutes so it can deeply penetrate and react with the stone.

Remove: Do not let the STONE DENS 200 puddle and dry on the surface. Wipe away any excess material before continuing with finer polishing pads.

PACKING SIZE :- Component A - 1.0, 5.0, 10.0 & 20.0 LITRE

SHELF LIFE & STORAGE:-

NEROVAK Stone dens 200 typically has a **shelf life of 24 months** under optimal, climate controlled conditions when stored unopened in its original container from date of manufacturing. keep away from sunlight exposure.
