TECHNICAL DATA SHEET

PRODUCT DESCRIPTION:-

NEROVAK Mastic based on styrene diluted unsaturated polyester resin and MEKP (methyl ethyl ketone peroxide) solid & liquid ph in different colour combinations is highly versatile, cost effective adhesive and sealing compound. it's two component thermosetting material used for repair of stone and marbles. its main benefits include rapid curing, excellent adhesion to stone and marble, resistance to water & chemical and incredibly easy to clog-free sanding.

ADVANTAGES:-

CURING : Cures rapidly with a hardener (BPO/Catalyst), usually solidifying enough to sand within 20 - 30 minutes, keeping your work moving fast and within time frame.

SUPERIOR ADHESION : Bond strongly to various types of natural & artificial marbles and stones.

EASY SANDING : Unlike heavy epoxy filler, it is lightweight and sands smoothly without clogging your sandpapper, ensuring a perfectly leveled surface.

LOW SHRINKAGE : Dimensionally stable, meaning it won't shrink or pull away as it dries.

VERSATILITY : Can easily be shaped and sculpted. it's ideal for filling deep gouges, minor cracks and micro holes.

EASY MACHINABILITY: Once fully cured, the mastic can be effortlessly sanded, drilled or painted, allowing for seamless, invisible repairs of marble & stones.

PACKING SIZE :- Component A - 1.2 KG

Component B - 30 GRAMS

SHELF LIFE & STORAGE:-

NEROVAK Mastic typically has a **shelf life of 12 months** under optimal, climate controlled conditions when stored unopened in its original container from date of manufacturing and it's require a cool, dry & dark environment to maintain its shelf life and prevent degradation, ideal conditions includes temperature 25 to 30 degree centigrade, low humidity under 30% and zero direct uv or sunlight exposure.
