PRODUCT DESCRIPTION:-

TECHNICAL DATA SHEET

NEROVAK Wet Look sealer is a solvent free silicone concentrate, based on a mixture of silane and siloxane to imparts water and stain repellency of mineral substrates while providing an enhanced look.

NEROVAK Wet Look works well on a wide variety of mineral substrates commonly used in the tile industry including natural & artificial stone, marble, limestone, slate and Saltillo clay tile etc.

KEY PROPERTIES:-

Formulated to impart an enhanced appearance on stone and natural marble & tile substrates.

Depending upon application, it provides either a matte or a gloss finish.

Hardened NEROVAK wet look sealer is UV stable and provides excellent water repellency to reduce cracking, spalling, freeze/thaw damage, chemical degradation, biological growth, efflorescence, and dirt pickup, thereby lengthening substrate life and reducing maintenance costs.

Coatings are vapor permeable to resist cracking, peeling and blistering.

One coat sufficient. Several coats possible.

Superior storage stability including freeze/thaw stability for ease of use.

PROCESSING:-

Surfaces should be clean from dust, dirt, oils, grease, curing compounds, other coatings, efflorescence, and laitance before applying NEROVAK Wet Look.

NEROVAK Wet Look should be applied as supplied to achieve the desired application effect.

One to two coats of NEROVAK Wet Look should be applied to achieve an enhanced appearance. Two to three coats of NEROVAK Wet Look should be applied to achieve an enhanced appearance with gloss. NEROVAK Wet Look can be applied with a soft, lint-free cloth, sponge, or paint brush. Excess material should be removed to prevent inconsistencies in the enhancement. The product should be fully cured within 24 hours.

SHELF LIFE & STORAGE:-

NEROVAK Colour enhancer sealer typically has a **shelf life of 24 months** under optimal, climate controlled conditions when stored unopened in its original container from date of manufacturing. keep away from sunlight exposure.
